

ADR Global has been created for Hotel Owners, Asset Managers, and GMs as short-term access to industry professionals without the extensive contracts of a traditional management company. We provide targeted analysis and improvement plans for any specific area that you may have concerns with at your property. We know that as an Owner or GM, it is impossible to be an expert on all aspects of the business at all times. We created ADR Global to bridge the gap between internal knowledge and reliance on outside management, marketing, or traditional big brand flag companies.
